BONUS · PRACTICE EXAM 2

Practice Exam 2

85 questions · 90 minutes · weighted like the real RBT exam

Exam format

85

questions · 90 minutes

Same length and timing as the real RBT exam (3rd ed.). On the real exam, 75 questions are scored and 10 are unscored pilot items you can't identify, so answer every question.

Questions by area

Area	Q	Real exam
Behavior Acquisition	21	25%
Behavior Reduction	16	19%
Data Collection & Graphing	15	17%
Ethics	13	15%
Documentation & Reporting	11	13%
Behavior Assessment	9	11%

How to use this practice exam

1. Print the answer sheet (page after the questions) or use scrap paper.
2. Set a timer for **90 minutes** and take the exam in one sitting, without notes.
3. Mark one answer per question. If unsure, eliminate options and choose the best one.
4. Check your answers with the **answer key**. Each answer has a short explanation.
5. Fill in the **score by area** table to see where to study more.
6. Review the cards of your weakest areas before taking the next practice exam.

Quick strategy

Read the last sentence of the question first: it tells you what is being asked. Underline the behavior and what happened right after it. On ethics questions, the best answer usually protects the client and involves the supervisor.

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Questions 1–8

Choose the BEST answer.

1 **Giving a client choices about the order of tasks to prevent problem behavior is a(n):**

(A) Punishment procedure
(B) Antecedent intervention
(C) Consequence intervention
(D) Extinction procedure

2 **Which data collection should the RBT use during a session?**

(A) The method the RBT finds easiest
(B) Whichever the parent prefers
(C) The method written in the client's program
(D) A different method each day

3 **In DRO, if the problem behavior occurs during the interval, the timer usually:**

(A) Doubles
(B) Stops forever
(C) Keeps running
(D) Resets

4 **Which is a professional boundary violation?**

(A) Explaining what was done in the session
(B) Greeting the family warmly
(C) Lending money to a client's family
(D) Arriving on time

5 **Recording behavior as it happens in the natural setting (such as ABC data) is called:**

(A) Indirect assessment
(B) Direct (descriptive) assessment
(C) Functional analysis
(D) Preference assessment

6 **A reprimand is given after a behavior, and the behavior decreases in the future. This is:**

(A) Negative reinforcement
(B) Positive reinforcement
(C) Negative punishment
(D) Positive punishment

7 **In a functional analysis, conditions are arranged to test what maintains behavior. Who is responsible for it?**

(A) The parent
(B) The classroom teacher
(C) The RBT alone
(D) The BCBA, with the RBT assisting under close supervision

8 **Which is a disadvantage of permanent product recording?**

(A) It cannot be graphed
(B) You must watch the whole session
(C) It needs a stopwatch
(D) You may not know who produced the result or how

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Questions 9–16

Choose the BEST answer.

9 **On a line graph, data points should NOT be connected:**

(A) Within the same phase
(B) When values go down
(C) When values are zero
(D) Across a phase change line

10 **Which statement best compares DTT and naturalistic teaching?**

(A) DTT is adult-led and structured; naturalistic teaching follows the client's motivation
(B) Naturalistic teaching never uses reinforcement
(C) Both always take place at a table
(D) DTT only uses natural reinforcers

11 **"Baseline" on a graph refers to:**

(A) Data collected before the intervention starts
(B) Data collected after mastery
(C) The goal line
(D) The average of all data

12 **Which practice helps prevent prompt dependence?**

(A) Use the same prompt forever
(B) Fade prompts and reinforce independent responses more
(C) Prompt every trial at full physical
(D) Avoid reinforcing independent responses

13 **The main purpose of the RBT Ethics Code is to:**

(A) Replace supervision
(B) Protect clients and guide professional conduct
(C) Allow RBTs to design treatment
(D) Increase the RBT's salary

14 **In least-to-most prompting, each trial begins with:**

(A) A partial physical prompt
(B) A model
(C) Full physical guidance
(D) An opportunity to respond independently

15 **A client throws toys mostly when the parent is on the phone, and the parent then stops and scolds. The likely function is:**

(A) Tangible
(B) Escape
(C) Automatic
(D) Attention

16 **NCR reduces problem behavior mainly because:**

(A) The client already receives the reinforcer, reducing motivation for the behavior
(B) It teaches a new skill
(C) It punishes the behavior
(D) It removes the reinforcer

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Questions 17–24

Choose the BEST answer.

17 **A late session note should be:**

(A) Combined with another client's note
(B) Backdated to the session day
(C) Skipped
(D) Clearly labeled as a late entry per agency policy

18 **Sharing client information with the treatment team should follow the principle of:**

(A) Sharing only by social media
(B) Maximum detail
(C) Minimum necessary
(D) Sharing everything with everyone

19 **A client mastered colors in March and still identifies them correctly in June without teaching. This shows:**

(A) Extinction burst
(B) Shaping
(C) Generalization
(D) Maintenance

20 **Which is an objective description for an ABC data entry?**

(A) Got frustrated
(B) Wanted to avoid work
(C) Pushed the worksheet off the desk and said "no"
(D) Was being defiant

21 **An RBT needs to know how long a client stays seated at the table during lunch. Which measure is best?**

(A) Duration
(B) Latency
(C) Inter-response time
(D) Frequency

22 **A client's prompted correct responses are recorded as independent correct. What is the problem?**

(A) It changes the rate only
(B) The data will overstate the client's independence
(C) There is no problem
(D) The data will understate progress

23 **A client used to say "hi" only to the RBT and now greets teachers and peers too. This is:**

(A) Satiation
(B) Extinction
(C) Shaping
(D) Generalization

24 **Which description of a behavior is operationally defined?**

(A) Seems bored in the chair
(B) Is restless during class
(C) Doesn't like to sit
(D) Leaves the assigned seat with both feet touching the floor away from the chair

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Questions 25–32

Choose the BEST answer.

25 **In a single stimulus preference assessment, items are presented:**

(A) In an array with replacement
(B) All at once without removal
(C) One at a time
(D) Two at a time

26 **Confidentiality applies:**

(A) Only during sessions
(B) Only to written records
(C) Only if the client is a minor
(D) During and after services end

27 **An RBT records a client's tantrum duration as 4 minutes, but it actually lasted 8. Why does this matter?**

(A) Inaccurate data can lead to wrong treatment decisions
(B) Only frequency affects decisions
(C) It doesn't matter for short behaviors
(D) Duration is never used for decisions

28 **A client gets a sticker every time they clean up, and cleaning up increases. The sticker is a:**

(A) Punisher
(B) Negative reinforcer
(C) Positive reinforcer
(D) Motivating operation

29 **"Ready, set..." → client says "go!" This is a(n):**

(A) Echoic
(B) Intraverbal
(C) Tact
(D) Mand

30 **On ethics questions, the best answer usually:**

(A) Protects the client and involves the supervisor
(B) Has the RBT confront the family alone
(C) Lets the RBT decide independently
(D) Ignores the issue

31 **Which belongs in a session note?**

(A) Guesses about the client's feelings
(B) Targets worked on and a summary of the data
(C) Other clients' names
(D) The RBT's opinion about the parents

32 **A client yelled 20 times in a 60-minute session. What is the rate per minute?**

(A) 20 per minute
(B) 0.33 per minute
(C) 3 per minute
(D) 1.2 per minute

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Questions 33–40

Choose the BEST answer.

33 **Which is the best response when a family offers you a valuable gift?**

(A) "Only if no one finds out."
(B) "That's so kind, but I'm not able to accept it."
(C) "I'd prefer cash."
(D) "Thank you, I'll keep it."

34 **A client hums loudly during independent work, even when alone. The plan provides headphones with music. This strategy matches:**

(A) Escape function
(B) Automatic (sensory) function
(C) Attention function
(D) Tangible function

35 **The brief pause after a consequence and before the next SD in DTT is the:**

(A) Intertrial interval
(B) Prompt delay
(C) Extinction period
(D) Latency

36 **In total task chaining, the client:**

(A) Watches the RBT do all steps
(B) Performs every step each time, with prompts as needed
(C) Learns only the last step
(D) Learns only the first step

37 **Which of these is an unconditioned (primary) reinforcer?**

(A) Water when thirsty
(B) A token
(C) Money
(D) Praise

38 **In ABC data, "The teacher said 'line up'" is the:**

(A) Antecedent
(B) Function
(C) Consequence
(D) Behavior

39 **A client's medication was changed this week and problem behavior increased. What should the RBT do?**

(A) Change the behavior plan
(B) Ignore it
(C) Report it to the supervisor and document it
(D) Tell the parent to stop the medication

40 **You put on sunglasses, the glare goes away, and you wear sunglasses more often. This is:**

(A) Negative reinforcement
(B) Positive punishment
(C) Negative punishment
(D) Positive reinforcement

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Questions 41–48

Choose the BEST answer.

41 **Which BEST describes the RBT's role with a behavior intervention plan?**

(A) Implement it exactly as written and collect data
(B) Write it with the parents
(C) Revise it when needed
(D) Decide when to stop it

42 **A child's tablet time is taken away after hitting, and hitting decreases. This is:**

(A) Positive punishment
(B) Extinction
(C) Negative reinforcement
(D) Negative punishment

43 **Once a skill is learned, which schedule helps maintain it and makes it more resistant to extinction?**

(A) Extinction
(B) Continuous reinforcement
(C) No reinforcement
(D) Intermittent reinforcement

44 **Seeking clinical direction means:**

(A) Searching online and applying it
(B) Asking the supervisor how to proceed when unsure or the plan doesn't cover a situation
(C) Making up a new procedure
(D) Asking the parent to decide

45 **For a behavior the team wants to INCREASE, such as staying on task, which interval method is usually chosen?**

(A) Partial interval recording
(B) Whole interval recording
(C) Latency
(D) Permanent product

46 **When using extinction, why is consistency across all adults important?**

(A) It speeds up spontaneous recovery
(B) Inconsistent extinction can strengthen the behavior through intermittent reinforcement
(C) It isn't important
(D) It makes the burst longer on purpose

47 **An RBT's credential has expired. Which is correct?**

(A) Nothing changes
(B) They can work unsupervised
(C) They can keep using the title for 6 months
(D) They must not represent themselves as an RBT

48 **Rewrite "He had a meltdown" in objective language:**

(A) He was angry at me
(B) He lost control emotionally
(C) He was very upset
(D) He cried and kicked the floor for 5 minutes after the tablet was put away

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Questions 49–56

Choose the BEST answer.

49 **A caregiver asks, "Will my son be talking by summer?" The RBT should:**

(A) Promise he will
(B) Say he never will
(C) Give a personal prediction
(D) Refer the question to the supervisor

50 **A client hasn't had their favorite snack all day and works harder to earn it. This is an example of:**

(A) An abolishing operation
(B) Extinction
(C) An establishing operation
(D) Response cost

51 **Non-exclusionary time-out means:**

(A) The client is restrained
(B) The client stays in the setting but loses access to reinforcement
(C) The client is moved to another room
(D) The client receives extra attention

52 **A client waits for the RBT to point before responding, even on mastered tasks. This is called:**

(A) Satiation
(B) Generalization
(C) Prompt dependence
(D) Stimulus control

53 **A client says "cookie" because they see a cookie on a poster and the RBT says "Yes, a cookie!" This is a:**

(A) Mand
(B) Intraverbal
(C) Echoic
(D) Tact

54 **Reinforcing sitting in a chair to reduce running around the room is an example of:**

(A) DRO
(B) DRL
(C) NCR
(D) DRI

55 **Which task is outside the RBT's scope of practice?**

(A) Implementing a skill acquisition program
(B) Reporting to the supervisor
(C) Designing a new treatment plan
(D) Collecting data

56 **FCT is a type of:**

(A) NCR
(B) DRA
(C) Extinction alone
(D) Punishment

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Questions 57–64

Choose the BEST answer.

57 **An RBT loses a tablet that contains client data. What should they do?**

(A) Post on social media asking for it
(B) Report it to the supervisor immediately
(C) Wait to see if it turns up
(D) Buy a new one and say nothing

58 **A preferred item is one the client chooses often. When does it become a reinforcer?**

(A) As soon as it is chosen once
(B) Only if it is edible
(C) When the parent says so
(D) When delivering it after a behavior increases that behavior

59 **After a crisis that involved a safety procedure, the RBT must:**

(A) Let the parent decide whether to report
(B) Wait for the next monthly meeting
(C) Tell no one if nobody was hurt
(D) Document it and report to the supervisor as required

60 **During an extinction burst, the RBT should:**

(A) Give the reinforcer to calm the client
(B) Change to a new procedure
(C) Continue the plan consistently and keep everyone safe
(D) Stop the plan

61 **The stimulus that signals reinforcement is NOT available for a response is the:**

(A) SD
(B) Conditioned reinforcer
(C) Motivating operation
(D) S-delta

62 **For escape-maintained behavior, what does escape extinction usually involve?**

(A) Giving a preferred toy
(B) Giving a break after problem behavior
(C) Continuing the task and not removing it after problem behavior
(D) Ignoring the client

63 **In a fixed interval schedule, reinforcement is delivered:**

(A) Every time the client responds
(B) Randomly, without responses
(C) After a set number of responses
(D) For the first response after a set amount of time

64 **Shaping is different from chaining because shaping:**

(A) Always starts with the last step
(B) Links several behaviors in a sequence
(C) Doesn't use reinforcement
(D) Changes one behavior through successive approximations

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Questions 65–72

Choose the BEST answer.

65 **Which statement about the four functions is correct?**

(A) Automatic behavior always needs an audience
(B) Escape is maintained by negative reinforcement
(C) Tangible behavior is maintained by escape
(D) Attention is maintained by negative reinforcement

66 **Which action shows cultural responsiveness?**

(A) Avoiding families from other cultures
(B) Assuming all families are alike
(C) Learning about the family's routines and values and adapting respectfully
(D) Requiring every family to follow your routines

67 **Which measure is most useful when sessions are different lengths and you need to compare counts?**

(A) Rate
(B) Whole interval
(C) Latency
(D) Frequency

68 **Rounding session time up on a timesheet is:**

(A) Expected by insurance
(B) Inaccurate billing and an ethics problem
(C) Fine if the family agrees
(D) Acceptable if small

69 **For a high-rate behavior the team wants to DECREASE, such as calling out, which interval method is usually chosen?**

(A) Partial interval recording
(B) Momentary time sampling only
(C) Whole interval recording
(D) Duration

70 **What should an RBT do when asked to implement a feeding procedure they've never been trained on?**

(A) Request training before implementing it
(B) Refuse all future feeding goals
(C) Try it and see
(D) Ask another RBT to do it secretly

71 **Which is TRUE about delivering tokens in a token economy?**

(A) Never explain what the tokens are for
(B) Deliver them immediately, paired with praise
(C) Deliver them only after problem behavior
(D) Deliver them at the end of the week

72 **With momentary time sampling, a behavior that happens briefly in the middle of each interval but not at the end will be:**

(A) Counted as duration
(B) Overestimated
(C) Missed (not recorded)
(D) Recorded in every interval

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Questions 73–80

Choose the BEST answer.

73 **An incident report should be:**

(A) Written only if someone was hurt badly
(B) Written a week later
(C) Kept secret from the supervisor
(D) Objective, complete and submitted within the agency's deadline

74 **DRL is most appropriate for behaviors that:**

(A) Are acceptable at low rates but a problem at high rates
(B) Never occur
(C) Are dangerous
(D) Must be eliminated completely

75 **Data points on a graph jump between very high and very low values from session to session. This shows high:**

(A) Variability
(B) Level
(C) Latency
(D) Trend

76 **An RBT's close friend enrolls her child in services, and the RBT is assigned the case. What should the RBT do?**

(A) Offer a discount
(B) Work with the child and say nothing
(C) Inform the supervisor about the multiple relationship
(D) Ask the friend to keep it secret

77 **An employer asks the RBT to change data so a client "meets criterion" faster. The RBT should:**

(A) Change it only once
(B) Ask the parent's opinion
(C) Change the data
(D) Decline and report through the proper channels

78 **Why are session notes important?**

(A) They are only for the RBT's memory
(B) They replace data collection
(C) They are optional
(D) They are clinical and legal records that also support billing

79 **Which prompt is the MOST intrusive?**

(A) Verbal
(B) Full physical
(C) Gestural
(D) Model

80 **Which preference assessment is often recommended when removing items tends to trigger problem behavior?**

(A) Paired stimulus
(B) Single stimulus
(C) MSWO
(D) Free operant

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Questions 81–85

Choose the BEST answer.

81 **A client cries in the store and the parent buys candy; crying in stores increases. The likely function is:**

(A) Attention only
(B) Tangible (access to items)
(C) Escape
(D) Automatic

82 **A client is reinforced on average every 5 responses (sometimes 3, sometimes 7). The schedule is:**

(A) Variable interval 5
(B) Fixed ratio 5
(C) Fixed interval 5
(D) Variable ratio 5

83 **Which is TRUE about DRA?**

(A) It reinforces lower rates of the same behavior
(B) It removes tokens
(C) The alternative behavior often serves the same function as the problem behavior
(D) It reinforces the absence of behavior

84 **A client's parent sends the RBT a friend request on social media. The RBT should:**

(A) Accept but hide posts
(B) Politely decline and keep communication through agency channels
(C) Block the parent without explanation
(D) Accept it

85 **Under mandated reporting, the RBT needs:**

(A) A confession
(B) Proof of abuse
(C) Reasonable suspicion, not proof
(D) The parent's permission

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2

Answer Sheet

Fill in one circle per question. Name: _____ Date: _____

1	A	B	C	D	2	A	B	C	D	3	A	B	C	D
4	A	B	C	D	5	A	B	C	D	6	A	B	C	D

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2 · ANSWER KEY

Answers 1–20

Check each answer and read why it is correct.

1. B BEHAVIOR REDUCTION **Antecedent intervention.** It changes conditions before the behavior happens.

2. C DATA COLLECTION & GRAPHING **The method written in the client's program.** RBTs follow the measurement system set by the supervisor.

3. D BEHAVIOR REDUCTION **Resets.** Most DRO procedures reset the interval after the behavior.

4. C ETHICS **Lending money to a client's family.** Personal favors cross professional boundaries.

5. B BEHAVIOR ASSESSMENT **Direct (descriptive) assessment.** Observing and recording live is direct assessment.

6. D BEHAVIOR REDUCTION **Positive punishment.** Something is added and the behavior decreases.

7. D BEHAVIOR ASSESSMENT **The BCBA, with the RBT assisting under close supervision.** Functional analyses are designed and run under the supervisor's direction.

8. D DATA COLLECTION & GRAPHING **You may not know who produced the result or how.** The product doesn't show the process or who did it.

9. D DATA COLLECTION & GRAPHING **Across a phase change line.** Data paths are broken at phase change lines.

10. A BEHAVIOR ACQUISITION **DTT is adult-led and structured; naturalistic teaching follows the client's motivation.** DTT is structured; NET uses natural situations and interests.

11. A DATA COLLECTION & GRAPHING **Data collected before the intervention starts.** Baseline is the condition before treatment.

12. B BEHAVIOR ACQUISITION **Fade prompts and reinforce independent responses more.** Fading and differential reinforcement build independence.

13. B ETHICS **Protect clients and guide professional conduct.** The code protects clients and guides RBT conduct.

14. D BEHAVIOR ACQUISITION **An opportunity to respond independently.** Least-to-most starts with the least help, an independent opportunity.

15. D BEHAVIOR ASSESSMENT **Attention.** The behavior reliably produces adult attention.

16. A BEHAVIOR REDUCTION **The client already receives the reinforcer, reducing motivation for the behavior.** Free access to the reinforcer lowers the motivation (MO).

17. D DOCUMENTATION & REPORTING **Clearly labeled as a late entry per agency policy.** Late entries are labeled honestly.

18. C DOCUMENTATION & REPORTING **Minimum necessary.** Share only what is needed with authorized people.

19. D BEHAVIOR ACQUISITION **Maintenance.** Performing a skill over time after teaching ends is maintenance.

20. C BEHAVIOR ASSESSMENT **Pushed the worksheet off the desk and said "no".** Objective entries describe what was seen and heard.

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2 · ANSWER KEY

Answers 21–40

Check each answer and read why it is correct.

21. A DATA COLLECTION & GRAPHING **Duration.** "How long" a behavior lasts is duration.

22. B DATA COLLECTION & GRAPHING **The data will overstate the client's independence.** Prompted responses must be recorded as prompted.

23. D BEHAVIOR ACQUISITION **Generalization.** The skill now happens with new people.

24. D DATA COLLECTION & GRAPHING **Leaves the assigned seat with both feet touching the floor away from the chair.** Only the first option is observable and measurable.

25. C BEHAVIOR ASSESSMENT **One at a time.** Single stimulus presents one item per trial.

26. D ETHICS **During and after services end.** Client information stays confidential after services end.

27. A DATA COLLECTION & GRAPHING **Inaccurate data can lead to wrong treatment decisions.** Treatment decisions depend on accurate data.

28. C BEHAVIOR ACQUISITION **Positive reinforcer.** It is added and the behavior increases.

29. B BEHAVIOR ACQUISITION **Intraverbal.** A fill-in response to someone's words is intraverbal.

30. A ETHICS **Protects the client and involves the supervisor.** Client welfare and supervisor involvement guide RBT ethics.

31. B DOCUMENTATION & REPORTING **Targets worked on and a summary of the data.** Notes include objective information about services and data.

32. B DATA COLLECTION & GRAPHING **0.33 per minute.** 20 ÷ 60 ≈ 0.33 responses per minute.

33. B ETHICS **"That's so kind, but I'm not able to accept it.".** Decline politely and inform the supervisor.

34. B BEHAVIOR REDUCTION **Automatic (sensory) function.** Matched stimulation addresses automatically maintained behavior.

35. A BEHAVIOR ACQUISITION **Intertrial interval.** It is called the intertrial interval (ITI).

36. B BEHAVIOR ACQUISITION **Performs every step each time, with prompts as needed.** Total task = all steps every session.

37. A BEHAVIOR ACQUISITION **Water when thirsty.** Water is biologically important without learning.

38. A DATA COLLECTION & GRAPHING **Antecedent.** It happened before the behavior.

39. C DOCUMENTATION & REPORTING **Report it to the supervisor and document it.** Report setting events; medication decisions belong to the doctor.

40. A BEHAVIOR ACQUISITION **Negative reinforcement.** Something unpleasant is removed and the behavior increases.

PRACTICE EXAM 2 · ANSWER KEY

Answers 41–60

Check each answer and read why it is correct.

41. A BEHAVIOR REDUCTION **Implement it exactly as written and collect data.** RBTs implement plans with fidelity and report data.

42. D BEHAVIOR REDUCTION **Negative punishment.** A preferred item is removed and the behavior decreases.

43. D BEHAVIOR ACQUISITION **Intermittent reinforcement.** Intermittent schedules maintain behavior and resist extinction.

44. B DOCUMENTATION & REPORTING **Asking the supervisor how to proceed when unsure or the plan doesn't cover a situation.** When unsure, the RBT consults the supervisor.

45. B DATA COLLECTION & GRAPHING **Whole interval recording.** Whole interval is used for behaviors to increase (it tends to underestimate).

46. B BEHAVIOR REDUCTION **Inconsistent extinction can strengthen the behavior through intermittent reinforcement.** Occasional reinforcement makes behavior more persistent.

47. D ETHICS **They must not represent themselves as an RBT.** Only active credentials may be represented.

48. D DOCUMENTATION & REPORTING **He cried and kicked the floor for 5 minutes after the tablet was put away.** Objective language describes actions, duration and context.

49. D DOCUMENTATION & REPORTING **Refer the question to the supervisor.** Prognosis questions go to the supervisor.

50. C BEHAVIOR ACQUISITION **An establishing operation.** Deprivation increases the value of the reinforcer (EO).

51. B BEHAVIOR REDUCTION **The client stays in the setting but loses access to reinforcement.** In non-exclusionary time-out the client remains in the area.

52. C BEHAVIOR ACQUISITION **Prompt dependence.** Relying on prompts to respond is prompt dependence.

53. D BEHAVIOR ACQUISITION **Tact.** Labeling with social reinforcement is a tact.

54. D BEHAVIOR REDUCTION **DRI.** Sitting is physically incompatible with running.

55. C ETHICS **Designing a new treatment plan.** Designing treatment is the supervisor's role.

56. B BEHAVIOR REDUCTION **DRA.** FCT reinforces a communicative alternative behavior.

57. B DOCUMENTATION & REPORTING **Report it to the supervisor immediately.** Lost data is a potential breach and must be reported right away.

58. D BEHAVIOR ASSESSMENT **When delivering it after a behavior increases that behavior.** A reinforcer is defined by its effect on behavior.

59. D BEHAVIOR REDUCTION **Document it and report to the supervisor as required.** Crisis events are documented and reported promptly.

60. C BEHAVIOR REDUCTION **Continue the plan consistently and keep everyone safe.** Giving in during a burst reinforces more intense behavior.

Study aid based on the public RBT Test Content Outline (3rd ed.). Not affiliated with or endorsed by the BACB.

PRACTICE EXAM 2 · ANSWER KEY

Answers 61–80

Check each answer and read why it is correct.

61. D BEHAVIOR ACQUISITION **S-delta.** S-delta signals no reinforcement for that response.

62. C BEHAVIOR REDUCTION **Continuing the task and not removing it after problem behavior.** The task is not removed, so escape no longer follows the behavior.

63. D BEHAVIOR ACQUISITION **For the first response after a set amount of time.** Interval schedules still require a response after the time passes.

64. D BEHAVIOR ACQUISITION **Changes one behavior through successive approximations.** Shaping works on one behavior; chaining links steps.

65. B BEHAVIOR ASSESSMENT **Escape is maintained by negative reinforcement.** Escape removes something, so it is negative reinforcement.

66. C ETHICS **Learning about the family's routines and values and adapting respectfully.** Cultural responsiveness means respecting and adapting to each family.

67. A DATA COLLECTION & GRAPHING **Rate.** Rate adjusts the count for the time observed.

68. B ETHICS **Inaccurate billing and an ethics problem.** Billing must reflect the actual services provided.

69. A DATA COLLECTION & GRAPHING **Partial interval recording.** Partial interval is used for behaviors to decrease (it tends to overestimate).

70. A ETHICS **Request training before implementing it.** RBTs only implement procedures within their competence.

71. B BEHAVIOR ACQUISITION **Deliver them immediately, paired with praise.** Immediate delivery strengthens the connection with the behavior.

72. C DATA COLLECTION & GRAPHING **Missed (not recorded).** MTS records only what happens at the moment the interval ends.

73. D DOCUMENTATION & REPORTING **Objective, complete and submitted within the agency's deadline.** Incident reports must be timely and factual.

74. A BEHAVIOR REDUCTION **Are acceptable at low rates but a problem at high rates.** DRL reduces, but doesn't eliminate, a behavior.

75. A DATA COLLECTION & GRAPHING **Variability.** Variability is how much the data bounce around.

76. C ETHICS **Inform the supervisor about the multiple relationship.** Potential multiple relationships are disclosed to the supervisor.

77. D ETHICS **Decline and report through the proper channels.** Falsifying data is an ethics violation regardless of who asks.

78. D DOCUMENTATION & REPORTING **They are clinical and legal records that also support billing.** Notes document services, support billing and continuity of care.

79. B BEHAVIOR ACQUISITION **Full physical.** Full physical guidance is the most intrusive prompt.

80. D BEHAVIOR ASSESSMENT **Free operant.** In free operant assessment no items are removed.

PRACTICE EXAM 2 · ANSWER KEY

Answers 81–85

Check each answer and read why it is correct.

81. B BEHAVIOR ASSESSMENT **Tangible (access to items).** The behavior produces access to an item.

82. D BEHAVIOR ACQUISITION **Variable ratio 5.** An average number of responses = variable ratio.

83. C BEHAVIOR REDUCTION **The alternative behavior often serves the same function as the problem behavior.** DRA reinforces an appropriate replacement behavior.

84. B ETHICS **Politely decline and keep communication through agency channels.** Social media friendships can create multiple relationships.

85. C DOCUMENTATION & REPORTING **Reasonable suspicion, not proof.** Reporting is based on reasonable suspicion.

PRACTICE EXAM 2

Your Results

Find your strong and weak areas.

Score by area

Area	Questions	Correct	%	Review
Behavior Acquisition	21			Cards 29–53
Behavior Reduction	16			Cards 54–72
Data Collection & Graphing	15			Cards 01–17
Ethics	13			Cards 86–100
Documentation & Reporting	11			Cards 73–85
Behavior Assessment	9			Cards 18–28
Total	**85**			

% = correct ÷ questions × 100.

Below 80% in an area?

Study that area's cards again, focusing on the **Tell the difference** and **Exam traps** boxes. Then redo only the questions you missed.

Before the real exam

Aim to score consistently well on both practice exams. Review every wrong answer until you can explain why the correct option is best.
